

UNDERSTANDING YOUR TREATMENT

Tesamorelin/Ipamorelin Blend

A synergistic GH-releasing blend for optimized growth hormone output

- i** Tesamorelin/Ipamorelin is a dual-peptide blend that combines two complementary growth hormone-releasing compounds. Tesamorelin is an FDA-approved growth hormone-releasing hormone (GHRH) analog that stimulates the pituitary gland to produce and release growth hormone. Ipamorelin is a selective growth

HOW IT WORKS

1**Type**

GH-Releasing Blend

2**Components**

Tesamorelin 13mg + Ipamorelin 3mg

3**Route**

Subcutaneous injection

Talk to your prescriber about whether Tesamorelin/Ipamorelin Blend may be right for you

This compound is available by prescription only

WHAT RESEARCHERS HAVE FOUND

Tesamorelin reduces visceral adipose tissue in HIV lipodystrophy

Pivotal Phase III trial demonstrated significant reduction in visceral adipose tissue (VAT) with tesamorelin treatment, leading to FDA approval for HIV-associated lipodystrophy.

New England Journal of Medicine, 2007

Ipamorelin: selective GH secretagogue profile

Ipamorelin demonstrated dose-dependent GH release with minimal effect on ACTH, cortisol, and prolactin, distinguishing it from other GH secretagogues like GHRP-6 and hexarelin.

European Journal of Endocrinology, 1998

QUESTIONS TO ASK YOUR PROVIDER

- ? How does this blend compare to using tesamorelin or ipamorelin alone?
- ? What IGF-1 and metabolic markers should we monitor?
- ? What is the recommended injection timing for optimal GH release?
- ? How long before I see changes in body composition?
- ? Are there any contraindications given my current health profile?

IMPORTANT SAFETY INFO

Injection site reactions (redness, swelling) are the most common side effect

Monitor IGF-1 levels periodically during treatment

Potential water retention and joint stiffness during initial treatment

Contraindicated in patients with active malignancy or pituitary tumors

Use with caution in patients with a history of hypothalamic-pituitary disease

Not recommended during pregnancy or breastfeeding
